Vale School -- (541) 473-3291

In Oregon children with special needs, birth-21 years have a right to certain programs and services. Like all children with different needs, these children deserve the chance to develop fully.

We need your help in finding these children. A child's problem may not be obvious and the parents may be the only ones who know the child has a special need.

Not every concern is listed, so if you would like more information, please contact any of the numbers listed in this brochure.

Areas of concern may include:

- Physical development
- Long-term illness
- Mental retardation
- Delays in development
- Hearing or vision problems
- Speech or language difficulties
- Social/Emotional problems
- Learning disabilities

If you know of a child who is at risk for developmental delays or problems in any of the areas listed below, please contact your local school district

Will you help give each child a chance to develop to their fullest potential by passing on this information.
